

CRITERIA, GUIDELINES AND PROCEDURES FOR AUTHORIZATION OF NEW PROGRAMS IN THE EMIRATE OF ABU DHABI

DEPARTMENT OF EDUCATION & KNOWLEDGE 2016
v.1.2

FOREWORD

The current *Criteria, Guidelines and Procedures for New Program Authorization* in the Emirate of Abu Dhabi provides the necessary information for HEIs in their process of application to the Abu Dhabi Department of Education & Knowledge to obtain a 'No Objection Letter for offering a new study/academic program – bachelor and above - in the Emirate of Abu Dhabi. This document provides information regarding:

- * Fundamental principles of ADEK upon which the new program authorization procedure is based;
- * ADEK's approach to authorization of new programs to function in the Emirate of Abu Dhabi;
- * Requirements a new program proposal must meet in order to obtain ADEK's 'No Objection'.

To ensure coherence with ADEK's strategic priorities the ADEK authorization criteria underpin their operationalization through spelling those priorities out in the principles that underpin the ADEK's procedures.

The ADEK strategic priorities are as follows:

- * **Quality:** raise the quality of Abu Dhabi's higher education system to internationally recognized levels
- * **Alignment:** align higher education with Abu Dhabi's social, cultural, and economic needs
- * **Research:** build and maintain a research ecosystem to drive an innovation-based economy
- * **Access:** provide all qualified students with affordable access to higher education

The ADEK criteria look at the quality of educational provisions, access to higher education, alignment with the national development plans as well as an aspiration to establish a knowledge-based society through evaluating the impact and the value added that the new programs bring to the HE system and the Emirate of Abu Dhabi society at large.

The ADEK's authorization procedure is mission- and evidence-based in nature, which is underpinned by the fitness-of-purpose approach to quality assurance where the purpose is set by the socio-economic and cultural needs in alignment with Abu Dhabi's strategic priorities.

The ADEK criteria, guidelines and procedures for authorization of new programs are developed based on the good practice at the international level with particular consideration of the standards set by the overarching umbrella quality assurance networks.

The ADEK criteria, guidelines and procedures are subject to revision at regular intervals to ensure relevance to the socio-economic and cultural needs as well as validity.

The criteria, guidelines and procedures in this manual apply to all types of HE providers in the Emirate of Abu Dhabi; federal, governmental and private.

T. +971 (2) 615 0000 IG. ADEK_INSTA WWW.ADEK.GOV.AE

T. +971 (2) 615 0000 IG. ADEK INSTA WWW.ADEK.GOV.AE

STATEMENT OF AUTHORITY

ADEK was established in accordance with law No. 24 of 2005, issued by His Highness Sheikh Khalifa Bin Zayed Al-Nahyan, the UAE President, the Supreme Commander of the Armed Forces and the Ruler of Abu Dhabi.

The Abu Dhabi Department of Education & Knowledge (ADEK) mission is to improve the quality and outcomes of schooling and higher education within the Emirate of Abu Dhabi (EAD), and to guide and define the overall profile and quality of higher education offerings within the Emirate. The Executive Council has delegated authority to ADEK with respect to leading, influencing and implementing educational initiatives and growth within the EAD.

A HEI interested in offering a new program in the EAD must follow the criteria, guidelines and procedures as outlined in this manual to obtain a “No Objection Letter” from the ADEK before filing an application with the Ministry of Education (MOE) Commission for Academic Accreditation (CAA) for initial accreditation. No entity (e.g. individuals, institutions, consortia or organizations) may advertise, solicit, recruit, enroll, or offer a new program in the EAD until it meets the criteria set in this manual and is authorized for operation by ADEK.

The current criteria, guidelines and procedures are supported by an operating Memorandum of Understanding (2014) between the MOE and ADEK.

Extract from the MoU between ADEK and MOE (November, 2014) (translation from Arabic) Proposed Mechanism

1. Higher Education Licensing Protocol

- a) The current operating procedures shall continue. All applicants seeking to operate higher education activities in Abu Dhabi Emirate shall undergo ADEK’s Higher Education Licensing process as outlined in the ADEK Higher Education Licensing Policies. Successful applicants shall be issued a “No Objection Letter” from ADEK, however, such letter will not guarantee the approval from the UAE Commission for Academic Accreditation (CAA). After that step, applicants must submit an application for initial licensure to MOE CAA.
- b) Institutions seeking renewal of MOE licensure, or which anticipate any changes to the nature of their operations or their premises, or seek to relocate or open a new branch, shall duly re-engage in the process set out above.
- c) Institutions seeking to offer new programs must obtain ADEK’s approval before submitting the relevant application for initial licensure from CAA. Such process shall start after ADEK sets an implementation date.

The new program authorization criteria, procedures and related expenses are adopted by the resolution of the Executive Committee, Abu Dhabi Executive Council (2016/2/036/22) as of 21st June 2016.

THE QUALITY ASSURANCE FRAMEWORK IN THE EMIRATE OF ABU DHABI

The newly establishing Higher Education Institutions (HEIs) as well as programs intending to function in the United Arab Emirates are to obtain an initial institutional license/initial program accreditation from the MoHESR CAA. To be effective the HEIs and programs are to renew their license/accreditation on a five (5) year cyclical basis.

Thus, at the federal level, the quality assurance framework in the United Arab Emirates evolves around institutional and program components and includes the following mechanisms:

- * Initial Institutional Licensure (IL) for new Higher Education Institutions
- * Licensure (L) and Renewal of Licensure (RL) for existing Higher Education Institutions
- * Initial Program Accreditation (IA)
- * Accreditation (A) and Renewal of Accreditation (RA) for existing programs.

The quality assurance framework at the federal level falls under the jurisdiction of the CAA.

At the emirate level, in the EAD in particular, the quality assurance framework extends to include the following mechanisms:

- * Authorization of New Institutions
- * Re-authorization of Existing Institutions
- * Authorization of New Programs
- * Authorization of Substantive Changes.

The quality assurance framework in the EAD falls under the jurisdiction of the ADEK.

The two approaches – CAA and ADEK - are distinctive and complement each other in the sense that CAA's quality assurance framework looks at the extent to which the HEI or program is *fit for the purpose/mission* it has been established for, while the ADEK quality assurance framework specifically looks at the *fitness-of-purpose* in relation to Abu Dhabi's strategic priorities. Thus, all proposals submitted to ADEK for authorization of new HEIs and programs as well as re-authorization of existing HEIs to function in Abu Dhabi should underpin fitness to the socio-economic and cultural needs frame of reference with an explicit emphasis on the *value added, impact and alignment with the strategic priorities of Abu Dhabi*.

ADEK quality assurance procedures sequentially precede CAA's (re)-licensing and initial accreditation procedures for new HEIs, new programs, existing HEIs and substantive changes. ADEK's No Objection Letter is a prerequisite for the applicants to apply to the CAA for respective procedures.

The current guidelines offer the detailed approach that ADEK underpins and the HEIs should follow while conducting authorization of new programs in the Emirate of Abu Dhabi.

ADEK's framework for authorization of new programs refers to the programs that fall within the QFEmirates levels leading to a bachelor degree and above and focuses on the following questions:

- The above outlined questions are translated into criteria, sub-criteria, indicators and guidelines to usher the applicants through the application preparation process.

- * Any potential higher education provider seeking to establish a new program in the Emirate of Abu Dhabi must consult ADEK prior to submitting the application.
- * The higher education providers filing applications for authorization should partner with internationally **highly ranked** and **reputable** counterparts and/or leaders in the fields of study proposed.

A failure to comply with the prerequisites set by ADEK will result in the rejection of an application

CRITERIA FOR NEW PROGRAM AUTHORIZATION

Criteria	Sub-criteria	Indicators
1. Fitness to Socio-economic and Cultural Needs	<p>1.1 Alignment with Abu Dhabi's strategic priorities: The proposal clearly demonstrates how the new program goals and objectives are aligned with Abu Dhabi's socio-economic and cultural vision and contribute to the promotion of its strategic priorities.</p> <p>1.2 Response to socio-economic and cultural needs: There is a clear articulation of the socio-economic and cultural needs that graduates from this program would fulfil.</p> <p>1.3 Employability of graduates: The HEI is tracking the employment of its graduates to raise their employability as well as to better serve the needs of the market.</p>	<ul style="list-style-type: none"> - Status of national and international accreditation - Employer satisfaction rate - Graduate satisfaction rate - % of employment within nine months of graduation
2. Sustainable and Differentiated Provision	<p>2.1 Value-added of the program: The proposed program is differentiated from existing programs offered in Abu Dhabi HEIs, and offers a uniqueness that will add scope and value to existing provision.</p> <p>2.2 Feasibility and sustainability of the program: The proposed program is feasible and sustainable in the medium and long-term.</p>	<ul style="list-style-type: none"> - % of programs aligned with Abu Dhabi strategic plan - Board of trustees formation is in accordance with the international standards - % of strategic projects shared with Abu Dhabi-wide entities - Number of academic programs with research and innovation projects
3. Programs	<p>3.1 Alignment with the qualification framework: The learning outcomes of the program are in line with the Emirates Qualifications Framework (QFEmirates) at the defined level and ensure development of skills in the field of research and/or the professional practice.</p>	<ul style="list-style-type: none"> - % of colleges with established Advisory Board - % of programs aligned with QFEmirates - % of international students on sponsorship

CRITERIA FOR NEW PROGRAM AUTHORIZATION

3. Programs (Cont.)	3.2 The learning outcomes: ¹ The intended learning outcomes of the program are clearly stated with regard to knowledge, skills, and competencies and are aligned with international requirements.	<ul style="list-style-type: none"> - % of programs with integrated practicum/internship
4. Research and Innovation	<p>4.1 Research innovation: The proposal clearly states the institutional intentions related to research and development in line with Abu Dhabi's socio-economic and cultural needs, defines the proposed areas of research and the potential research endeavors and thus promotes a culture of innovation and a knowledge- based society.</p> <p>4.2 Research outputs and outcomes: The research outcomes and outputs are visible at the national, regional and international levels.</p>	<ul style="list-style-type: none"> - Total budget allocated for research - Graduate/undergraduate students ratio - Total # of publications - # of publications per faculty - # of patents, licenses and spin-offs - # and value of external research grants - Field-weighted citation impact - Publications in top journal percentiles (%) - 25%
5. Resources	<p>5.1 Faculty and administrative staff: The planned faculty and staff recruitment approach is clear and effective. It ensures faculty have the necessary qualifications to enable students effectively to achieve the intended learning outcomes.</p> <p>5.2 Learning resources: The institution has secured student access to learning resources (e.g. library, labs) to ensure achievement of the learning outcomes.</p> <p>5.3 Student services: The institution has secured access to student support services necessary to ensure the learning expected of its students as well as promote career aspirations.</p> <p>5.4 Physical resources: The planned campus and facilities (infrastructure) are sufficient for the successful implementation of the program and achievement of the intended learning outcomes.</p>	<ul style="list-style-type: none"> - % of full-time faculty members - % of faculty with PhD - % of faculty with qualifications from top 500 internationally ranked institutions (e.g. QS, Shanghai, THE) - Faculty : student ratio (excluding foundation year) - # of print holdings – journals and textbooks - # of electronic holdings - journals and textbooks - # and % of students obtaining full time employment on graduation through the institution

¹ For PhD programs additional requirements leading to alignment with the internationally accepted practices are provided in the guidelines below.

T. +971 (2) 615 0000 IG. ADEK_INSTA WWW.ADEK.GOV.AE

GUIDELINES TO THE CRITERIA

CRITERION 1: FITNESS TO SOCIO-ECONOMIC AND CULTURAL NEEDS

The overall guideline for filling in an application for authorization of a new program is each sub-criterion should be addressed through an in-depth analysis as described in the current manual and justified with respective facts, figures and evidence.

- 1.1 Alignment with Abu Dhabi's strategic priorities:** The proposal clearly demonstrates how the new program goals and objectives are aligned with Abu Dhabi's socio-economic and cultural vision, and contribute to the promotion of its strategic priorities.
- 1.2 Response to socio-economic and cultural needs:** There is a clear articulation of the socio-economic and cultural needs that graduates from this program would fulfil.
- 1.3 Employability of graduates:** The HEI is tracking the employment of its graduates to raise their employability as well as to better serve the needs of the market.

Guidelines:

- 1.1** The proposal should demonstrate how the proposed program is aligned with Abu Dhabi's labor market, socio-economic and cultural needs, guided by Abu Dhabi's strategic priorities. It should be clearly demonstrated how the program contributes towards building a knowledge-based economy, what the value added is and what the expected impact would be. Further, the program should have clearly set goals reflected in specific objectives, which should be in line with the mission statement of the HEIs and AD strategic priorities.
- 1.2** To justify this sub-criterion the proposal should provide an analysis of labor, socio-economic and cultural needs followed by a clear statement of the problems and the opportunities. Considering the new program authorization procedure pursues a relevance-to-the-market-needs frame of reference, all the analysis and descriptions should be delivered from that particular perspective. While describing the fitness of the program to the socio-economic and cultural needs a clear link between the objectives of the program and the socio-economic and cultural needs should be drawn. The analysis should cover demand and supply, and should consider where there is evidence of unmet need:
 - * Demand:** A clear articulation of what occupations/jobs the program/qualification prepares the graduates for should be provided. There should be clear evidence of prior consultation with potential employers and prospective students, the understanding of existing/potential capacity gaps and the Emiratization agenda. Any available evidence of employment rates among graduates of similar or broadly comparable programs should be presented.

GUIDELINES TO THE CRITERIA

- * **Supply:** Evidence should be provided that the program will attract a pipeline of students and should include a detailed elaboration on the likely background or profile of the expected student body.

1.3 The HEIs applying for establishment of a new program should provide justifications and evidences of their prior success with the existing programs with regards to employability and the extent to which they are able to meet the market demands.

Required Documents:

- * A feasibility study of the proposed program in the context of Abu Dhabi labor market, including an analysis of labor market demand and the proposed supply of the pipeline of students.

CRITERION 2: SUSTAINABLE AND DIFFERENTIATED PROVISION

2.1 Value-added of the program: The proposed program is differentiated from existing programs offered in Abu Dhabi higher education institutions, and offers a uniqueness that will add scope and value to existing provision.

2.2 Feasibility and sustainability of the program: The proposed program is feasible and sustainable in the medium and long-term.

Guidelines:

2.1 This sub-criterion requires elaboration on how the proposed program will value-add to, and be different from, existing programs in other Abu Dhabi HEIs that are similar or broadly comparable; and how it will be perceived by prospective students as superior and offering good job prospects. Please provide a description of how the program can/will meet any specific market need that is not being addressed by similar or broadly comparable programs.

2.2 Evidence is required to show that the proposed number of students will be sufficient to enable the program to be sustained in the medium- and long-term. Furthermore, clear evidence of sufficient capacity of existing infrastructure and resources to support and sustain the proposed program, its prospect for success and the ability to maintain the benefits of the program in the Abu Dhabi labor market overtime should be demonstrated. The design of the program should demonstrate how the objectives are translated into strategies to be pursued for the upcoming four years and have a respective operational plan revealing feasibility of the program in relation to the activities to be undertaken.

GUIDELINES TO THE CRITERIA

The major concepts underpinned in the mission statement of the HEI should be reflected in the strategies and operational plans of the program.

If the new programs are offered in partnership with renowned HEIs (nationally or internationally, if any), there should be a comprehensive description of the role of the partner, its contribution and its value added in the endeavor.

Required Documents:

- * An analysis of the proposed program vs. similar or broadly comparable programs at other Abu Dhabi HEIs, including the business case for the new program to be offered;
- * Commitment letter from the partner, if any.

CRITERION 3: PROGRAMS

- 3.1 Alignment with the qualification framework:** The learning outcomes of the program are in line with the Emirates Qualifications Framework (QFEmirates) at the defined level and ensure development of skills in the field of research and/or the professional practice.
- 3.2 The learning outcomes:** The intended learning outcomes of the program are clearly stated with regard to knowledge, skills, and competencies and are aligned with international requirements.

Guidelines:

- 3.1** There should be a clear articulation of the value added of the program spelled out in the objectives and intended learning outcomes, which should be in line with the mission statement of the HEI. The proposal should provide a justified analysis on how the proposed level and orientation (bachelor and above) as well as the intended learning outcomes fit into the Qualifications Framework of Emirates (QFEmirates)². The analysis under this sub-criterion should clearly show alignment of each program learning outcome with the respective level qualifications outlined in the QF Emirates. Such an analysis also refers to all the courses/modules offered within the frames of the program, which should demonstrate clear alignment with the QFEmirates. A learning outcomes matrix should be filled in, attached and referenced to in the application (see Annex F attached). To ensure development of practical skills, the program design should demonstrate a balanced division between theory and practice as well as allocate sufficient time for gaining practical skills in a work place, internships.

²QF Emirates Handbook at www.nqg.gov.ae

The proposal should demonstrate how the proposed level ties in with the international perspective of the requirements currently set by the professional field and the discipline with regard to the content and outcomes of the program. The intended learning outcomes of the program should be clearly stated with regard to knowledge, skills, and competencies. There should be a clear justification of the opportunities that the achieved learning outcomes will open up for the students as well as how it will support their successful functioning in the market. A clear link with the labor market, socio-economic and cultural needs as well as alignment with the international requirements in the specific field of study should be demonstrated.

Guideline 2: The doctoral program is in line with the strategies of the HEIs and those of Abu Dhabi's strategic vision. The HEI demonstrates a strong capacity to assume responsibility for ensuring that the doctoral program and research training they offer are designed to meet new challenges and include appropriate professional career development opportunities.

Guideline 9: The institution has clearly set mechanisms for constant enhancement and internationalization of its doctoral programs.

- * Program handbook (should include basic data on the program, e.g. level of the program, other design elements necessary to have a holistic view of the program);
- * Program strategic and operational plans;
- * Modes of delivery;
- * Student prospectus;
- * Research strategies in relation to the new program.
- * A handbook for PhD students (in case of offering a PhD degree).

4.1 Research innovation: The proposal clearly states the institutional intentions related to research and development in line with Abu Dhabi's socio-economic and cultural needs, defines the proposed areas of research and the potential research endeavors and thus promotes a culture of innovation and a knowledge-based society.

4.2 Research outputs and outcomes: The research outcomes and outputs are visible at national, regional and international levels.

4.1 The proposal should demonstrate the areas of research to be pursued by the HEI. The HEI should justify the research functions and processes it is planning to be involved in within the frames of the program and provide adequate evidence demonstrating potential for steady increase in research participation, enhancement of research quality and productivity, promotion of innovation and establishment of a knowledge-based society in the long-term. Links between research and teaching and learning should be clearly described.

4.2 The HEI should be able to demonstrate a stable history of research outputs and innovation achieved within the frames of other programs offered at the institution. The achievements should be visible at national, regional and international levels. As for the new program a clear projection for visibility at national, regional and international levels should be submitted.

- 5.1 Faculty and administrative staff:** The planned faculty and staff recruitment approach is clear and effective. It ensures faculty have the necessary qualifications to enable students to achieve the intended learning outcomes.
- 5.2 Learning resources:** The institution has secured student access to learning resources (e.g. library, labs) to ensure achievement of the learning outcomes.
- 5.3 Student services:** The institution has secured access to student support services necessary to ensure the learning expected of its students as well as promote career aspirations.
- 5.4 Physical resources:** The campus and existing (and any planned) facilities (infrastructure) are sufficient for the successful implementation of the program and achievement of the intended learning outcomes.
- 5.5 Funding:** The funding model is feasible and sustainable; the projections ensure implementation of the program objectives and guarantee achievement of the learning outcomes/qualifications by the students.

5.1 The quality of a program largely depends on the number of faculty and their qualifications, experience and engagement in scholarly activities. The HEI should have a clearly planned approach to faculty recruitment for the new program, which should be transparent and ensure the adequate qualifications to actually contribute to the formation and achievement of the intended learning outcomes. The number of faculty must be sufficient to ensure appropriate student and faculty ratio and, therefore, achievement of the intended learning outcomes by the students, to cover the breadth of expertise required as well as to maintain continuity in the event of faculty turnover. There must be a sufficient number of full-time faculty with relevant qualifications and experience in teaching the intended learning outcomes of the program in the major location where the program is delivered. Involvement of faculty members from highly ranked HEIs is an added value to the program.

The management of the program is at the heart of the program's success, thus, the HEI should have a responsible person for the program design, implementation, monitoring, review and enhancement. There should be explicit academic leadership to ensure the management, development and monitoring of the program. A clear focus should be made on the qualifications of the staff member responsible for the program. The qualifications of the manager should enable an effective and efficient management of the program. The management and administration should be skilled enough to exercise quality assurance mechanisms to further enhance the program.

- ### Required Documents:

- T. +971 (2) 615 0000 IG. ADEK_INSTA WWW.ADEK.GOV.AE**

- ## CRITERION 6: QUALITY ASSURANCE

6.2 National and international accreditation: the institution has a strong track record of international accreditation of its existing programs and has a robust plan for ensuring international accreditation of the new ones.

6.1 For efficient implementation of the program, the proposal should demonstrate availability of formal mechanisms for a regular evaluation of its effectiveness. It is crucial to have a robust quality assurance in place to ensure that the program is well-designed, regularly monitored and periodically reviewed, thereby securing its continuing relevance to the socio-economic needs and currency. Such a system should be based on a regular feedback coming from the stakeholders – students, employers, teaching and administrative staff. A student-centered approach is valuable, thus it is important to demonstrate how the students will be involved in the management and quality assurance of the program. It is also highly recommended to conduct comparative analyses (benchmarking) with similar programs at national and international levels to better understand and be enabled to improve the program performance. There should be a clear projection on how the program's quality will be safeguarded to ensure it maintains the set standards as well as takes efforts to enhance it. A clear plan for national and international accreditation by recognized professional bodies should be specified.

- * Documentation laying out the mechanisms to be applied for assessing the program's relevance to the socio-economic needs and effectiveness;
- * Plans for promoting program visibility (national and international accreditations);
- * Any other evidence related to international accreditation and evaluations.

PROCEDURE

* The procedural steps

All HEIs planning to offer a new study/academic program leading to a bachelor degree and above are to apply to ADEK for authorization leading to a grant of a 'No Objection Letter' prior to submitting an application for initial accreditation to the CAA.

Overall, the duration of the procedure is up to 3-4 months (see Annex A for the flowchart). In case there is a need to amend the application for completeness by the applicant, an additional two weeks might apply.

Procedures for authorization of new programs and new concentrations are conducted through two major approaches:

- As a stand-alone program. In this case each program is considered a separate case;
- In a cluster of programs/concentrations. Usually, a group of programs or concentrations that belong to the same subject field.

Depending on the method of evaluation, (stand alone or cluster) the number of peer-reviewers might vary.

STEP 1: PREPARE AND SUBMIT APPLICATION

Description/ Definition:	The HEI planning to offer a new program should fill in the ADEK New Program Authorization application form (Appendix E). The application should be analytical in nature and should adhere to ADEK criteria for new program authorization. The application must be submitted through ADEK's Higher Education Authorization Portal
Responsible:	HEI
Inputs:	<ul style="list-style-type: none">• The ADEK New Program Authorization application form• The Application filed by the HEI intending to offer a new study program
Outputs:	The ADEK acknowledgement of the application receipt
Time line:	All the new programs should be submitted at least four months prior to the deadline for submitting the full application for Initial Accreditation to the CAA.

PROCEDURE

PROCEDURE STEPS

STEP 2: Pre-screen application for technical compliance

Description/ Definition:	Once the application is filed, the case is sent to the ADEK P&R Division Director a Procedure Coordinator The Procedure Coordinator receives and reviews the application along with the required supporting documents for technical compliance with the ADEK criteria and requirements.
Responsible:	ADEK P&R Division Director, the allocated Procedure Coordinator (P&R Division)
Inputs:	<ul style="list-style-type: none">• ADEK letter of application acceptance• ADEK contract with the HEI
Outputs:	The ADEK acknowledgement of the application receipt
Time line:	One week upon receipt of the application

STEP 3: Amend application

Description/ Definition	In case of detection of any non-compliance with the ADEK requirements, the application is sent back to the HEI for revision and resubmission.
Responsible:	ADEK QC Section Manager, HEI
Outputs:	<ul style="list-style-type: none">• ADEK letter of non-compliance to the HEI• Resubmitted application
Timelines:	Two weeks upon the receipt of the letter of non-compliance.

PROCEDURE

PROCEDURE STEPS

STEP 4: Select and appoint external reviewers

Description/Definition:	The ADEK P&R Procedure Coordinator identifies potential external reviewers and submits the list for approval to the ADEK Academic Quality Assurance Committee (AQAC). The external reviewers are contracted and are to sign ADEK non-disclosure/confidentiality statement and ADEK conflict of interest statement.
Responsible:	ADEK AQAC
Inputs:	<ul style="list-style-type: none"> • ADEK policy and procedure for external reviewer selection • List of external reviewers • ADEK non disclosure / confidentiality statement • ADEK conflict of interest statement
Outputs:	<ul style="list-style-type: none"> • Letter appointing the panel members ADEK contract with external reviewers • Statements of confidentiality and conflict of interests signed by external reviewers
Timelines:	One week upon the submission of the list to the ADEK AQAC the external reviewers' panel is appointed.

STEP 5: Submit application for external desk-review

Description/Definition:	External reviewers are granted full access (via the Higher Education Authorization Portal) to the application for desk-review.
Responsible:	ADEK QC Section Manager
Inputs:	<ul style="list-style-type: none"> • The application package • ADEK external reviewer's template and guidelines
Timelines:	Within one week after the external panel appointment

PROCEDURE

PROCEDURE STEPS

STEP 6: Conduct external desk-review

Description/ Definition:	The external reviewers conduct the desk review. Close to the end of the review a one-day-session takes place in ADEK under the QC Section Manager's and Procedure Coordinator's lead to draw the major findings and recommendations for the follow up (if any). The international reviewer(s) will join the session through video conference.
Responsible:	External reviewers and ADEK's QC Section Manager and P&R Procedure Coordinator
Outputs:	Individual Reports of the external reviewers
Timelines:	Three weeks upon being granted full access to the application

STEP 7: Prepare summary report

Description/ Definition:	The panel Chair along with the ADEK P&R Expert prepare a Summary Report to be submitted to the AQAC for decision taking.
Responsible:	ADEK QC Section Manager; P&R Division Director
Inputs:	The summary report template
Outputs:	A signed Summary Report
Timelines:	One week upon the receipt of the Individual Reports.

PROCEDURE

PROCEDURE STEPS

STEP 8: Take decision

Description/ Definition:	The summary report is sent to the ADEK AQAC for decision taking.
Responsible:	ADEK AQAC
Inputs:	The signed Summary Report
Outputs:	Minutes of the session
Timelines:	Within one week upon the submission of the Summary Report.

STEP 9: Inform the applicant on the decision taken

Description/ Definition:	<p>In case of a positive decision a No Objection Letter is issued to the HEI intending to offer a new study/academic program. The No Objection Letter is signed by the ADEK Chairman and is sent to the applicant.</p> <p>In case of a negative decision a Non Approval Letter is issued to the HEI intending to offer a new study/academic program. The Non Approval Letter is signed by the ADEK Chairman and is sent to the applicant. The new application for this particular program will not be accepted until clear justification of the socio-economic needs is stated by the HEI and is accepted by ADEK.</p> <p>In case the decision taken entails further improvement of a new program a Letter of Recommendations with follow up activities is issued to the applicant.</p>
-------------------------------------	---

PROCEDURE

PROCEDURE STEPS

STEP 9: Inform the applicant on the decision taken (Cont.)

Description/ Definition (Cont.):	The decision to further improve the program is taken in case the program is an innovative one and brings value to the Abu Dhabi labor market enhancement, however, the external reviewers evaluated it as partially meeting the criterion. The time-line for a new application is set in the Letter of Recommendations. The Letter of Recommendations and follow up is signed by the ADEK Chairman and is sent to the applicant.
Responsible:	ADEK AQAC; P&R Division Director, QC Section Manager
Inputs:	<ul style="list-style-type: none">• The No Objection Letter template• The Non Approval Letter template
Outputs:	<ul style="list-style-type: none">• The No Objection Letter addressed to the HEI• The Non Approval Letter addressed to the HEI• The Letter of Recommendations and follow up
Timelines:	Within one week upon the decision taking.

STEP 10: Inform the CAA on the decision taken

Description/ Definition:	Once the decision is taken, ADEK informs the CAA on the results of the procedure for the CAA consideration.
Responsible:	ADEK AQAC; P&R Division Director, QC Section Manager
Inputs:	<ul style="list-style-type: none">• The sample letter to the CAA• The No Objection Letter template• The Non Approval Letter template

Outputs:	<ul style="list-style-type: none"> • The letter to the CAA on the specific case and decision • The No Objection Letter addressed to the HEI • The Non Approval Letter addressed to the HEI • The Letter of Recommendations and follow up
Timelines:	Within 10 working days upon the decision taking.

The HEIs intending to establish a new program are to file an application for authorization to ADEK at least four months before submission to the CAA for initial accreditation.

Considering ADEK re-authorization is conducted with involvement of national and international reviewers, the following expenses apply to each procedure:

- All the expenses related to the procedure are borne by the applicant.

The costs related to the external reviews must accompany the agreement signed between ADEK and the applicant HEI. Each procedure will be calculated individually and the costs may vary depending on the nature of the procedure and the invited external reviewers.

ADEK's Higher Education Policy and Regulation Division establishes an external reviewer panel to conduct the authorization review of a proposed new program. The panel is assisted by the ADEK P&R Procedure Coordinator, assigned once the application is filed. The external review panel should:

- T. +971 (2) 615 0000 IG. ADEK_INSTA WWW.ADEK.GOV.AE**

ADEK conducts new program authorization procedures by selecting and appointing external reviewers to ensure objectivity and independence of decision-taking. To ensure transparency of the external review ADEK has adopted a procedure through which it selects and appoints external reviewers. The selection of external reviews has the following steps:

- T. +971 (2) 615 0000 IG. ADEK_INSTA WWW.ADEK.GOV.AE**

The following criteria are applied while selecting external reviewers:

- A PhD in the respective field of study;
- A proven track record of research conducted in the respective field of study;
- At least 10 years of teaching experience;
- Experience in developing study/academic programs;
- Experience in review and quality assurance (desirable);
- Fluency in English is required and in Arabic is preferred in English-medium programs; fluency in Arabic is required and in English is preferable in Arabic-medium programs; in case of international candidates English is required and Arabic is preferable.

- Be employed in a senior position in the market sector relevant to the program field of study;
- At least 10 years of experience supervising new employees and evaluating employee performance;
- Teaching in respective field (desirable);
- Experience in quality assurance (desirable);
- Fluency in English and Arabic.

All the reviewers are to sign a declaration of independence/conflict of interests and ADEK Non-Disclosure/Confidentiality prior to the launch of the external review. In these declarations, the reviewers attest to having taken note of the conflict of interest and non-disclosure policy. The final report submitted to AQAC for decision taking should include a declaration that the assessment has been carried out independently and the findings may not be disclosed by any other party but the ADEK.

Considering the value of innovative and market-wise valuable programs are the cornerstone of Higher Education's success, ADEK's external evaluation is carried out on a three-point scale to allow for the strong cases with some technical deficiencies to improve their proposals. Thus, the following interpretation of the three-point scale underpins the logic of external evaluation:

Partially meets the criterion - this scale applies in exceptional cases when the market need is clearly stated and the value added and relevance of the endeavor is explicit, however, there are administrative and technical issues still to be addressed to meet the criterion.

The external reviewers should provide a list of major findings with substantiated analysis for each of their conclusions as well as provide a list of recommendations for the follow up and further promotion of the quality and relevance of the proposal/program.

Based on the desk review of the external reviewers, the Panel Chair along with the ADEK Procedure Coordinator develop a proposal to the ADEK AQAC for decision taking. The proposal should include a substantiated final conclusion on **the value-added and relevance** of the program on the same three point scale. The proposal should also include recommendations for any follow-up activities.

All the expenses related to the appeals procedure are borne by the appellant. The ADEK appeals procedure includes the following steps as outlined below:

**Description/
Definition:**

Responsible:

Inputs:

- ## Outputs:

- ## Timeline:

**Description/
Definition:**

The QC Section Manager prepares a draft Response Letter to the appellant stating the logistics of the review and providing information on any requirements that need to be prepared and submitted. The draft Response Letter is shared with the P&R Division Director for review.

Responsible:	ADEK QC Section Manager
Inputs:	Appeals Petition
Outputs:	Draft Response Letter
Timelines:	Within two weeks upon the case registration.

Description/ Definition	The P&R Division Director reviews the draft Response Letter received from the QC Section Manager and identifies any changes that need to be made. Once the Response Letter is finalized, it is sent to the Appellant.
Responsible:	ADEK P&R Division Director
Inputs:	<ul style="list-style-type: none"> • Response Letter • Appeals Petition
Outputs:	Finalized Response Letter
Timelines:	One day upon the receipt of the Draft Response Letter.

Description/ Definition:	The case is sent to two independent external reviewers for evaluation
Responsible:	External Reviewers
Inputs:	The Appeals Petition with all the supporting documents

Output:	The External Reviewers' report(s)
Timeline:	Two to six weeks upon receiving the case by the reviewers depending on the scope of the appeal.

Description/ Definition:	The QC Section Manager prepares the summary of the external reviewers' reports.
Responsible:	QC Section Manager
Inputs:	The reports of the external reviewers
Output:	Summary of the reports
Timeline:	Within one week upon receipt of the reports.

<p>Description/ Definition:</p>	<p>The Higher Education Appeals Committee convenes to take decision on the case.</p> <p>The Committee's secretary is responsible for recording the notes from the convention, including the decision to be taken.</p> <p>The Higher Education Appeals Committee discusses and makes a decision based on the documents in the case file including external reviewers' report(s).</p> <p>Once the decision is taken by the Higher Education Appeals Committee, the Committee Secretary prepares the recommendation to be signed by the Committee's Chair submitted to ADEK's Chairman for sign off.</p>
--	---

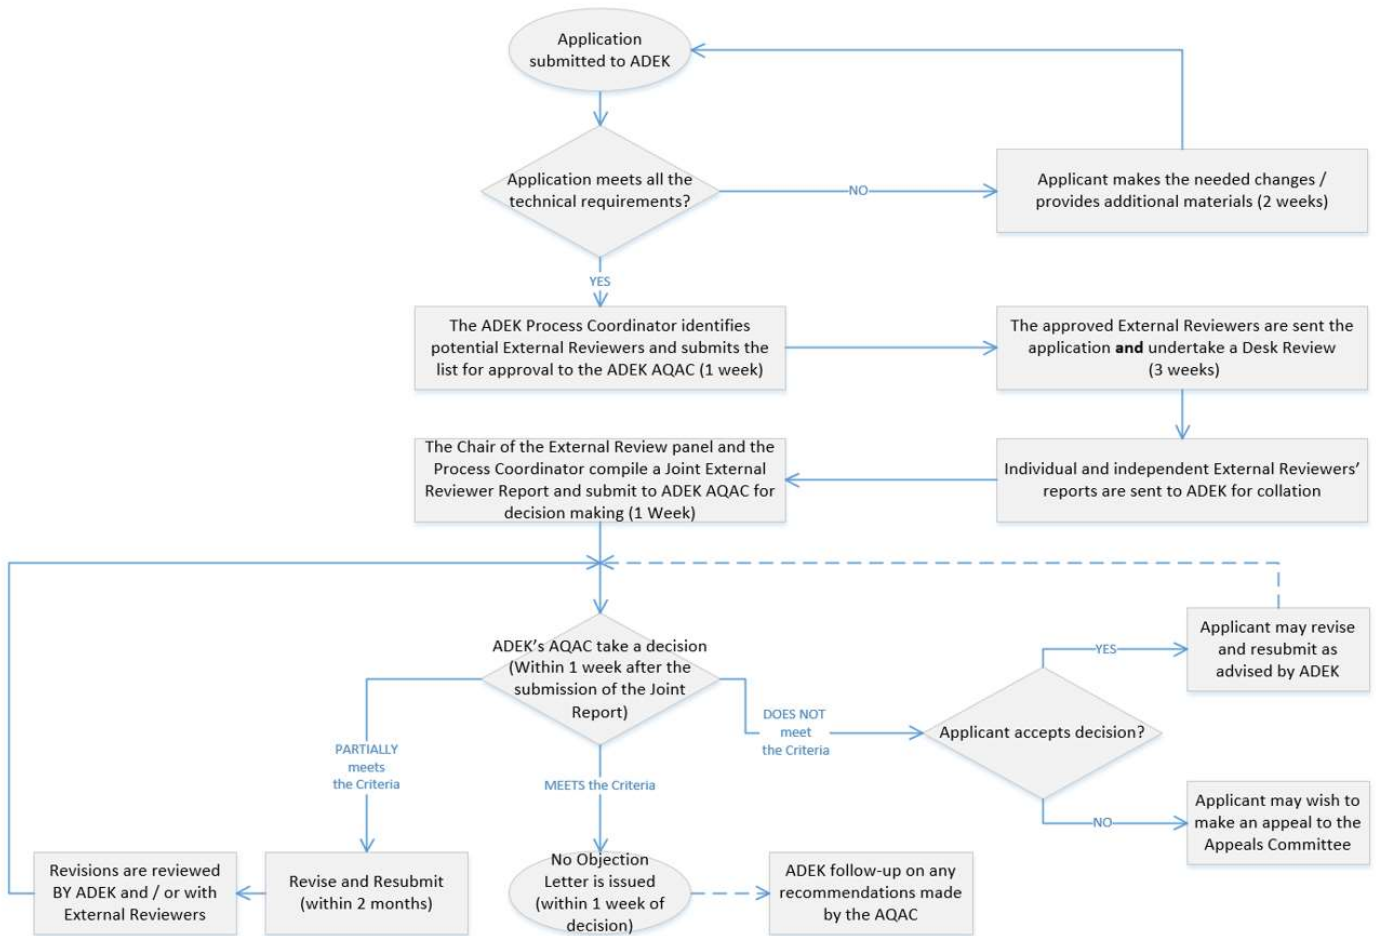

Responsible:	Higher Education Appeals Committee
Inputs:	Case file
Outputs:	Appeal Decision
Timeline:	Within two weeks upon the submission of the summary report

Description/ Definition:	The Appellant receives the final decision made by the Higher Education Appeals Committee and signed off by ADEK's Chairman. If ADEK's prior decision is overturned, the Appellant's application for a letter of No Objection proceeds. If ADEK's prior decision is upheld in the appeals process, the appellant is not permitted to appeal the decision further and the case file is closed and archived. The decision taken by the HE Appeals Committee is final and binding.
Responsible:	ADEK Chairman, HE Appeals Committee Chair, ADEK P&R Division Director
Inputs:	Appeal Decision
Timelines:	Within one week after the decision taking.

Below is the Application Cover page, which should be duly filled in, signed and submitted to ADEK along with the complete application package. The self-assessment report - the main part of the application package - should be developed in line with the ADEK criteria and guidelines for new program authorization. This application cover page also serves as a receipt of acknowledgement and a copy of it duly signed by respective authorities will be returned to the HEI upon the receipt and registration of the case.

Application Cover Page for a New Program Authorization

Please provide a brief (one side a4 max) holistic critique of the case as well as a summarizing narrative of your major findings.

Please provide a list of the key issues you identified along with statements justifying why you view each item as being an issue.

Please provide an 'Assessment Outcome' (i.e. Met, Partially Met or Not Met) of the case for **each criterion** along with a short statement identifying the major reason(s) for the suggested 'Assessment Outcome'.

Please provide the 'Assessment Outcome' for each criterion in the summary table below. Please only use **Met / Partially Met / Not Met** as possible Assessment Outcomes. i.e. No justification text is needed in the following table: Justification arises from Sections A-C.

For elaborations on the criteria please refer to the ADEK document 'Criteria, Guidelines, and Procedures for authorization of new programs in the emirate of Abu Dhabi'

ANNEXES

Criteria		Assessment Outcome
1	Fitness to socio-economic and cultural needs	
	1.1	Alignment with Abu Dhabi's strategic priorities
	1.2	Response to socio-economic and cultural needs
	1.3	Employability of graduates
Overall for Criterion 1		Met / Partially Met/ Not Met
2	Sustainable and Differentiated Provision	
	2.1	Value-added of the program
	2.2	Feasibility and sustainability of the program
Overall for Criterion 2		Met / Partially Met/ Not Met
3	Programs	
	3.1	Alignment with the qualification framework
	3.2	The learning outcomes
Overall for Criterion 3		Met / Partially Met/ Not Met
4	Research and Innovation	
	4.1	Research innovation
	4.2	Research outputs and outcomes
Overall for Criterion 4		Met / Partially Met/ Not Met
5	Resources	
	5.1	Faculty and administrative staff
	5.2	Learning resources
	5.3	Student services
	5.4	Physical resources
	5.5	Funding
Overall for Criterion 5		Met / Partially Met/ Not Met
6	Quality Assurance	
	6.1	Quality assurance
	6.2	National and international accreditation
Overall for Criterion 6		Met / Partially Met/ Not Met

Please provide recommendations for each of the issues you identified in Section B (Key Issues). This Section of your report is intended to inform the follow-up discussions between the HEI and ADEK and will be referred to in the decision-making, as well as follow-up, procedures.

Please provide any other additional comments you would like to raise about the case that have not been noted above.

Date on which the external reviewers submitted the Joint Report to ADEK:	
<small>T. +971 (2) 615 0000 IG. ADEK_INSTA WWW.ADEK.GOV.AE</small>	

Please provide a brief overview of the applicant institution and the fit of the program to the institution's strategies and quality assurance processes.

As a review team, please provide a team-agreed summary for each criterion. Use the headings and descriptions below to complete your evaluation. Please also refer to the sub-criteria to support your summary.

CRITERION 1: Fitness to socio-economic and cultural needs

- * **Major findings:** Major findings on the criterion that constitute a balanced presentation of *positive developments* and the *areas in further need of improvement*. All the statements need to be supported by evidence;
- * **Judgments:** For each statement made under section Major Findings provide a final Assessment Outcome. For the judgement use only one of the following outcomes Met / Partially Met / Not Met;
- * **Commendations:** For each *positive development*/statement please provide a sentence of commendation – these will inform the follow-up discussion between the HEI and ADEK;
- * **Recommendations:** For each area identified as needing *further improvement*, please provide a sentence of recommendation. The recommendation should draw on your expertise and awareness of international best practices.

Using the guidance above please identify your **collective major findings**, **collective judgements**, **collective commendations** and **collective recommendations** for each of the review criterion.

C. Assessment outcome for each criterion

Please provide your individual ‘Assessment Outcomes’ along with a team-agreed ‘Assessment Outcome’ for each criterion. Please only use **Met / Partially Met / Not Met** as possible Assessment Outcomes. i.e. No justification text is needed in the following table: Justification arises from Section B.

Criteria		R1	R2	R3	Team agreed
1	Fitness to socio-economic and cultural needs				
	1.1 Alignment Abu Dhabi's strategic priorities				
	1.2 Response to socio-economic and cultural needs				
	1.3 Employability of graduates				
Overall for Criterion 1					
2	Sustainable and differentiated Provision				
	2.1 Value-added of the program				
	2.2 Feasibility and sustainability of the program				
Overall for Criterion 2					
3	Programs				
	3.1 Alignment with the qualification framework				
	3.2 The learning outcomes				
Overall for Criterion 3					
4	Research and Innovation				
	4.1 Research innovation				
	4.2 Research outputs and outcomes				
Overall for Criterion 4					
5	Resources				
	5.1 Faculty and administrative staff				
	5.2 Learning resources				
	5.3 Student services				
	5.4 Physical resources				
	5.5 Funding				
Overall for Criterion 5					
6	Quality Assurance				
	6.1 Quality assurance				
	6.2 National and international accreditation				
Overall for Criterion 6					

Please provide any other additional comments you would like to raise about the case that have not been noted above.

Hereby, the expert panel declares that the assessment has been carried out independently and the findings will not be disclosed by any other party but the ADEK.

ANNEXES

* ANNEX I: Glossary of Terms

Term	Definition
Academic Quality Assurance Committee (AQAC)	The decision-taking body established within the ADEK Higher Education Sector to take decisions related to authorization of new HEIs, programs, substantive changes, and re-authorization of existing HEIs. The AQAC is comprised of the key stakeholders of the Abu Dhabi higher education system.
Academic/study program	An academic/study program is a combination of courses and/or requirements leading to a degree.
Appeal	A procedure in which applications are reviewed in case parties involved in a procedure request a formal change to an official decision. Appeals function both as a process for error correction as well as a process of clarifying and interpreting the decision. Appeal procedures are ADEK internal.
Authorization	Authorization is a process whereby a new institution or a new academic/study programs is granted a “no objection” to function in the Emirate of Abu Dhabi. Authorization is a pre-requisite step for new HEIs and new programs prior to their submission to the CAA for initial licensure and initial accreditation.
Criteria	Checkpoints or benchmarks determining the attainment of certain objectives and/or standards. Criteria describe to a certain degree of detail the characteristics of the requirements and conditions to be met and therefore provide the (quantitative and qualitative) basis on which an evaluative conclusion is drawn.
External review	The process whereby ADEK HE Sector Policy and Regulation Division collects data, information, and evidence about an institution, a particular unit or program of a given institution, or a core activity of an institution, in order to make a statement about its quality. The external review is usually based on a self-evaluation report provided by the institution and can be used as a basis for indicators or as a method of judgment for (external) evaluation in higher education. ADEK provides training programs/induction prior to the evaluation to ensure their mutual understanding and the fair, consistent, appropriate and smooth implementation of the process.
External reviewers	External review is carried out by a team of external experts, peers, or professionals in the field. The external reviewers have strong background in respective fields of study and professional experience, therefore, they come from academia for institutional authorization cases, and from academia and labor market for external review of study/academic programs.

ANNEXES

* ANNEX I: Glossary of Terms

Term	Definition
External review panel	The external review panel consists of up to 3 faculty members in case of institutional evaluation and up to 3 faculty members and professionals in respective fields in case of study/academic programs. For each procedure ADEK sets a panel by matching the qualifications of the peers and professionals with the submitted initiatives.
Evidence-based evaluation	Evidence-based evaluation is the cornerstone of the culture of evidence. The latter is a mindset acquired in a higher education institution and based on clear ethical values, principles, and rules, which consists of the self-evaluation of its learning outcomes, engaging the teaching staff and the academic administration in a thoughtful, regular collection, selection, and use of relevant institutional performance indicators, in order to inform and prove, whenever (and to whomever) necessary, that it is doing well in specific areas (e.g. institutional planning, decision-making, quality, etc.) and for the purpose of improving its learning and teaching outcomes. The culture of evidence requested from a higher education institution implies that the institution is encouraged to be able to provide empirical data proving the consistency of its own mission.
Fitness of purpose	Fitness of purpose is a definition of quality in higher education, which guides the principle of evaluation of the extent to which the quality-related intentions of an organization are adequate and are aligned with the priorities set in the country.
Fitness for purpose	Fitness for purpose is a definition of quality in higher education, which judges the quality of a product or service in terms of the extent to which its stated purpose—defined either as meeting customer specifications or conformity with the institutional mission—is met.
Follow up	Follow up is shorthand for procedures to ensure that outcomes of review processes have been, or are being, addressed.
Higher Education Institutions	An educational body which carries out higher education activities based on legally approved study programs leading to a bachelor degree and above. Any higher education institution must follow an external evaluation procedure in order to assess its quality and to acquire the provisional functioning authorization, followed by its official licensure, as well as the accreditation of its study programs. Higher education institutions may differ in size, quality, resources, number of teaching staff and students, etc.

ANNEXES

* ANNEX I: Glossary of Terms

Term	Definition
Procedure	A predefined, fixed, step-by-step sequence of activities or course of action (with definite start and end points) that must be followed in the same order to correctly perform an external evaluation.
QFEmirates	The single description, at national level or level of an education system, which is internationally understood and through which all qualifications and other learning achievements in higher education may be described and related to each other in a coherent way and which defines the relationship between higher education qualifications. The QFEmirates Handbook sets out the policies, structures, standards, systems and procedures for the national qualifications framework for the UAE, known as the QFEmirates. It enables a coherent, consistent and robust approach to be taken to the design of qualifications for higher education, general education and technical, vocational and professional education and training. It sets out criteria for both the accreditation of qualifications and for those organizations in the public and private sectors which are to deliver them. It provides guidance and a reference tool for accreditation and awarding bodies and qualifications designers and developers.
Re-authorization	Re-authorization is a process whereby an existing institution is granted a “no objection” to function in the Emirate of Abu Dhabi. It is a cyclical procedure and is conducted every five years prior to the HEI submission to the CAA for re-licensure.
Self-evaluation	The process of self-evaluation consists of the systematic collection of administrative data, the questioning of students and graduates, and the holding of moderated interviews with lecturers and students, resulting in a self-study report. Self-evaluation is a collective institutional reflection and an opportunity for quality enhancement. The resulting report further serves to provide information for the review team in charge of the external evaluation.
Substantive change	A procedure through which ADEK authorizes the changes undertaken by the HEI within the five-year cycle (in between two cycles of institutional authorization). Each substantive change undertaken by the HEI in between the two cycles of authorization have to be authorized by ADEK.
Technical compliance	The first step in external evaluation by the authorization body whereby the quality assurance experts evaluate the submission for compliance against ADEK criteria. The technical check ensures all the criteria are addressed in a due manner and all the required evidences to support the statements are in place prior to sending the application to the external reviewers. The application is not sent to the external reviewers if it fails to comply with ADEK criteria.

VERSION CONTROL

V1.1 Aug 2020

Workflow diagrams tidied (Annex A) Elaborations to the external reviewers' submission requirements - Section B of the Joint report (Annex H) Sub items added to the table in section D (Annex G) and the table in Section C (Annex H) Updated nomenclature (QI becomes QC & QID becomes P&R) to reflect the organizational changes within ADEK. Policy and Regulation Division (formally Quality Improvement Division)

V1.2 April 2021

Updated to reflect new ADEK branding
